EDUCATION

Guru Gobind Singh Indraprastha University

2022-2026

B.Tech in Information Technology

COURSEWORK

Courses: - Data Structures and Algorithms (DSA), C++, Java, Database Management Systems (DBMS), Software Design, Linux, Object-Oriented Programming (OOPs), C

SKILLS

Languages: C/C++, Java, JavaScript/TypeScript, HTML/CSS, MySQL, NoSQL

Tools: Git/GitHub, Unix Shell, VS Code, IntelliJ, Figma, Bit Bucket, Jira, Postman, AJAX, Vercel

Backend Technologies: NodeJS, MongoDB, Mongoose, RESTful API

Frameworks: React, Node.js, Bootstrap, Tailwind, GSAP, Next.js, Material-UI

EXPERIENCE

Times Internet | *Software Engineer Intern*

July. 2024 – Present

- **Game Integration for Increased Engagement** Worked on the Times of India app to integrate games, Developed architecture of 2 games from scratch, used fine tuning to enhance the gaming experience.
- **Product Enhancement and Maintenance** Improved overall system stability and performance by identifying and resolving critical bugs, ensuring smooth and reliable user experiences.
- **Collaborative Problem Solving** Partnered with backend and frontend teams to optimize API endpoints, reducing response time by 15%, and refined UI/UX to guarantee a seamless experience across various devices.
- **User-Centric Feature Development** Worked with the product manager to integrate new features based on user feedback and market research, significantly enhancing the product's functionality and user satisfaction.

PROJECTS

Shoe-Ping (E-Commerce) [GitHub Link](#) | *JavaScript, RESTful API, MongoDB, NodeJS, EJS, Bootstrap*

July 2024

- Developed a full-stack e-commerce website with HTML, CSS, and JavaScript for the front end, Node.js and Express.js for the backend, and MongoDB for the database.
- Integrated user authentication, product management, shopping cart functionality, and Stripe payment gateway, demonstrating proficiency in front-end, back-end, and database management.
- Implemented CRUD operations for products using RESTful APIs, enabling efficient client-server communication.

News App [GitHub Link](#) | *JavaScript, HTML, CSS, API*

June 2024

- Created a news application that fetches and displays the latest news articles from various sources.
- Utilized a news API to organize and present information effectively.
- Highlighted skills in working with APIs and building responsive web applications.

Weather App [GitHub Link](#) [Website Link](#) | *JavaScript, HTML, CSS, API*

June 2024

- Developed a web application that provides real-time weather information for any location.
- Utilized a weather API to fetch and display data in a user-friendly interface.
- Showcased ability to work with APIs and create interactive web applications.

ACHIEVEMENTS

President of the Institution's Innovation Council (IIC) at GTBIT, GGSIPU

Participated in several Hackathons

Attended a two-day summer cohort event focused on building smart contracts on Move and using Spheron's decentralized compute services
